

EZ School Payments

EZ School Payments is an easy-to-use, cloud-based application that facilitates the school payment process for administrators and parents. The solution provides accurate payment accounting for a single student or any group of students, whether those payments are required or optional. There is no contract to sign, no commitment, and no setup cost to try EZ School Payments today.

Create Required and Optional Payments

Administrators and office staff can create and organize required payments. Required payment categories are easily formatted and edited. Required payment items can be added or altered as necessary throughout the year.

Benefits:

- Reduce administrator and office staff time through automated data entry
- Drive collaboration through sharing of payment information via administrators and office staff
- Easy organization of required payments through the use of categories

Assign Required and Optional Payments

Administrators and office staff can assign required and optional payments to the entire school, grade, homeroom, or individual student. By leveraging categories and payment items, staff can easily view a list of students assigned a payment.

Benefits:

- Eliminate the distribution of paperwork and email payment information
- Automatic calculations of balances and amounts owed
- Save time by assigning payments to groups or individuals

Parent Payments

Required and optional payments are clearly displayed and easily moved to purchase items. Payments can be made online using a credit card or ACH. Cash or checks can be sent to the school directly.

Benefits:

- Simplify process of collecting required and optional payments
- Ensure accurate check or cash payments are sent to school by providing automated total amount owed
- Eliminate the distribution of paperwork and email payment information

OPTIONAL PAYMENT ITEM(S)

Comics (02/11/2020 - 02/27/2020) (\$100.00)
School Play (08/20/2019 - 08/21/2019) (\$10.00)

OPTIONAL PURCHASE ITEM(S)

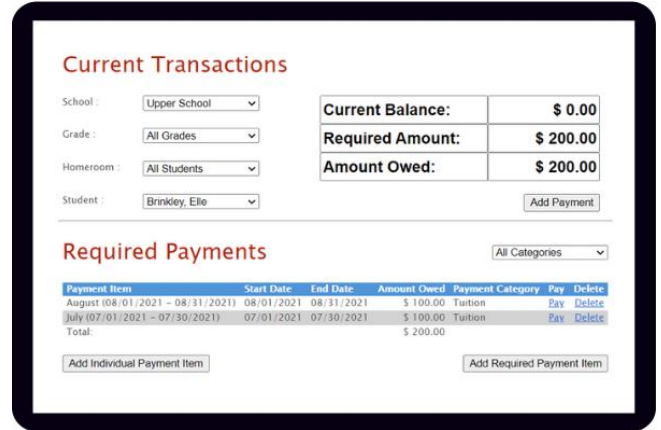

Transaction History

Administrators and office staff can view each student’s history of all required and optional payments. All cash, check, and credit card payments are also documented. Parents can view the identical information when logged into their account.

Benefits:

- Improve accuracy with up-to-date information of all transactions by student
- Reduced inquiry calls to school regarding payment information
- Improves the timely payment of fees

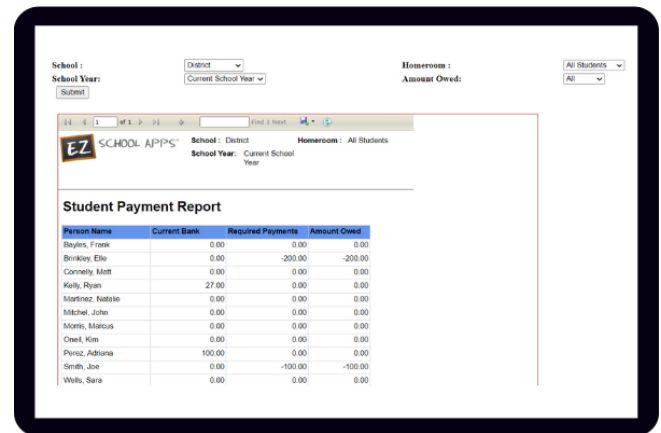

Revenue Report

Multiple reports provide key revenue information on a daily, weekly, or monthly basis. Cash, credit, and check transactions are automatically totaled to validate bank deposits. A total payments revenue report for districts and schools is also available.

Benefits:

- Validate accurate cash totals for bank deposits
- Eliminate ambiguity with an overall picture of the total revenue generated
- Reduce administrator and office staff time through automated revenue calculations

System Requirements

EZ School Payment is a cloud-based point of sale solution that only requires an internet connection and is accessible through any web browser. The application can run on any desktop, laptop, phone, or tablet device.

Setup and Pricing

Starting from \$500 per school location per year, there is no contract to sign, no commitment, and no setup cost to begin using EZ School Payments today. Once registered, access to the environment is available within 24 hours and the full setup (including upload of students) is typically completed within 72 hours.
